Dear Valued Customer,

The Havasu Pest Control family has been standing with and protecting homes and Businesses in Lake Havasu City for more than 47 years.

We're not stopping and here's how.

As a now classified essential service according to Governor Ducey's recently issued Safer at Home order, we will still be performing your pest control, weed control & termite services during these hard times focused mainly on exterior services at this time. If you need interior treatments, we are recommending postponing those interior services until your next service, or until further notice. The objective is to continue to treat and control the pest issues at your property, by controlling from the exterior to prevent pests from entering your home.

We are adapting to the current situation in order to provide you the best service, while we are protecting you, your family, and our technicians with the "recommended safe distance standards" per our local authorities.

If we can be of any assistance or have any questions feel free to contact our office during regular business hours 8:00am – 4:00pm M-F, (928) 855-1054 or through our website [www.havasupestcontrol.com](http://www.havasupestcontrol.com)

We appreciate you and your understanding during these times and together we'll get through it. Our hearts go out to all those impacted by COVID-19. We take the spread of this virus very seriously.

Thank you for your continued business and hope you and your family remain safe.

Sincerely,  
Michele Webb, CEO
